

# How To Delete Apps On Firestick

If your TV hangs up while using Amazon Firestick, then there are chances that the apps might be consuming too much space. Usually, the Amazon Fire TV stick has only 8GB of storage space. If you have exceeded the storage limit, then you should remove some apps to free up space. Keep reading the instructions below to know How to delete apps on Firestick.

## Steps To Uninstall Apps On Firestick

### How To Uninstall Apps On Firestick Using Settings

- Before you begin, connect your Amazon Fire TV stick to the rear port of your TV.
- Next, turn on your TV and launch your Firestick.
- Go to Settings by selecting the tab at the top-right corner using your Firestick remote.

- Scroll through the menu and select Applications.

### **How To Uninstall Apps On Firestick Using Apps & Channels**

- Turn on your Amazon TV first.
- Next, connect your Amazon Fire TV stick to your TV.
- Press the Home button on the Firestick remote. Hold the button to open the app menu.
- Select the Apps option using the navigation keys on the remote.
